

# Video Review in Respondus

Video Review is a feature offered by Respondus that allows you to review the video recording of the students who took the assessment. The video will not be available until after the student has submitted the assessment. Once the video becomes available, instructors can view any flags raised, along with other data. The average time for a video to be processed and available to be viewed is 3 hours.

4. A list of the students in the course will display, along with the date, time, duration of the test, grade, whether it was reviewed by the instructor and if there were any flags raised during the assessment.
5. Click [ + ] to expand the section for a student.
6. Details of the startup sequence and the assessment session are shown in thumbnails. Click a thumbnail to view the video from the time displayed. Videos can be marked as reviewed, flagged or have comments added by the instructor.

The screenshot shows the Respondus Monitor interface. At the top, it indicates 'LockDown Browser' and 'Respondus Monitor (webcam)'. Below this is a table listing students with columns for First, Last, Date, Duration, Webcam or Lab, Grade, Reviewed, Flag, and Comments. The student 'Deandra LaPointe' is selected, and her details are expanded below the table. This includes a 'Photo on File' (marked as 'Image not available'), a 'Startup Screenshot', an 'ID Screenshot', and an 'Environment Video'. A grid of video thumbnails shows the assessment session at various time points from 00:00:00 to 00:09:09. A larger video player on the right shows the current video frame with a play button and a progress bar. Below the video player are checkboxes for 'Reviewed' and 'Flagged', and a 'Comments/Warnings [none] Edit' field.
